

# SENTINEL™ FOOD GRADE PACKAGING BOARD

## SENTINEL™ FOOD GRADE PACKAGING BOARD

Consumers are demanding more. They want packaging that offers convenience and sustainability while protecting the retail food and beverage products they buy. From the grocery freezer to the microwave, from the retail shelf to the table, Sentinel paperboard delivers the durability and convenience consumers want. In addition, for brands, our paperboard offers a superior print surface, combined with the strength and stability to support efficient converting into a variety of forms, including trays, tubs and cups. Designed for more extended shelf life, we offer a variety of coatings, including polyethylene, PET, nylon and EVOH to protect the nutrients and preserve freshness and tastes for a variety of food and beverage products.
