### SPECIAL OFFER

## Parts and Service N-5/N-8 Summer Rebuild Kit Discounts Continue

**10% off parts** Evergreen Packaging's annual Summer Rebuild Kit sale continues through May 31, 2015. Order now to ensure timely delivery and to take advantage of these special prices good through May 31, 2015. **Turn to page 2** for the kit list, pricing and quantity of kits required for each filler.

### Service Discount for PMSA Customers

**Only** As an added incentive to take advantage of these kit discounts, Evergreen Packaging Field Service will waive the hourly travel charges and company car mileage charges to and from

your facility if at least one of these kits is installed by an Evergreen Packaging Service Technician during the visit. This free travel offer will begin on June 1 and continue through August 31. For more details and to schedule Evergreen Packaging Service, call 800-331-6083. Please remember not to schedule service until you have received a confirmed date for parts delivery.

This parts and service offer is valid only for PMSA customers located in North America.

### TRAINING SCHEDULE

## Get Expert Filler Training in Your Plant

Let trainer Dennis Meagher show you how to keep your Evergreen Packaging filler properly maintained for top performance and long life.

All scheduled training classes at Evergreen's Cedar Rapids facility are full. But Dennis will come to you to train your personnel on your own filling machine in your own plant. Also ask about in-plant

training using our N-8 fill system or Spout-Pak® training stands.

Don't wait to schedule training for your facility. Contact Dennis at 800-331-6083 X584 or [dennis.meagher@everpack.com](mailto:dennis.meagher@everpack.com). For the most up-to-date training school information, look online at [evergreenpackaging.com](http://evergreenpackaging.com).

### QUALITY POLICY

As employees, we will perform our jobs in conformance to customer and industry requirements with a commitment to doing it right the first time. We will manufacture and deliver on time, defect-free products and services to our customers.

We are dedicated to quality and continuous improvement.

SERVICE TIP

## Stainless Steel Captive Water Supply Tank Resists Corrosion, Leakage

The captive water supply tank on the original N-8 filler design was constructed of PVC material, which made the tank light and easy to work with.

Newer N-8 fillers have been constructed with stainless steel tanks, which are more durable and less prone to leakage over time. Made of 304 stainless steel, they are also resistant to corrosive cleaning solutions.

The stainless steel tank—PN 3493292—is now available to install on older N-8 fillers. The fittings have the same locations and orientation as the PVC tank, making it a drop-in replacement.

SERVICE TIP

## Brighten Up Your N-8 With Evergreen's Fluorescent Light Kit

Install update kit EP3058662 to improve visibility over the infeed area and in the fill enclosure on N-8 fillers SN 1525 - 1703. Included in the kit are two fluorescent light fixtures, mounting brackets, ballasts

(located in the electrical cabinet), mounting hardware and wiring to complete the installation. Contact Evergreen Repair Parts for more information.

EVERGREEN PACKAGING is a global leader in beverage packaging systems, serving the dairy, juice, specialty, and other liquid food markets. The Evergreen Packaging business employs nearly 4,100 people worldwide. Besides the North American facilities, Evergreen Packaging includes wholly owned subsidiaries in China, South Korea and Taiwan, and joint ventures in Israel, Latin America, North Africa and Saudi Arabia.

Evergreen Packaging is owned by Reynolds Group Holdings Ltd, an investment company that also owns Reynolds Packaging, Pactiv Corporation, Closure Systems International and Graham Packaging.

The Evergreen Packaging product line includes:

- Gable top packaging equipment—which forms, fills, and seals paper gable top cartons—available for pasteurized, ESL (Extended Shelf Life), ELL (Extended Long Life), and hot fill applications. These machines fill cartons from 4 oz. up to half-gallon (150 ml up to 2 liter), at speeds from 30 to 340 cartons per minute.
- SPOUT-PAK® twist-off closures for most gable top cartons.
- Gable top materials available through our global network of converting plants.

## Field Service Tech Coordinator Julann Clark Retires

All good things must end and so ends Julann Clark's 28 years with Evergreen Packaging effective May 31, 2015. Julann started working at then Cherry-Burrell as the secretary to the service department manager. She took on her current position in 1991 and has been on call—day and night, weekends and holidays—ever since, ready to send a service technician wherever customers needed him.

But Evergreen's service techs will tell you that Julann has been much more than the person who scheduled their work. They will tell you that she has been their rock and their shoulder to cry on. She knew the names of all their kids and grandkids. She was always there to listen and sometimes offer advice if she felt it was necessary.

As much as Julann cared about the hard-working service techs, the customer was always #1 with her. Customers knew they could count on her because she would go the extra mile to get a service tech on site ASAP and get them up and running.

We wish Julann all the best in retirement as she spends more time with her family and enjoys some much deserved relaxation.

## Sales Coordinator Karla Schrader Moves to Field Service Tech Coordinator Position

After 14 years as an integral part of the sales services department, Karla Schrader is replacing the retiring Julann Clark in field service. Karla will migrate between the two departments while she learns Julann's duties and helps to train her replacement in sales services.

We will certainly feel Karla's absence in sales services, but it's good to know she'll be right around the corner if we need to pick her brain. We wish her much success and fulfillment in her new position.

Every part you purchase from EVERGREEN PACKAGING EQUIPMENT is backed by our:

- Commitment to quality.
- Technical Service Team (TST) of engineers to answer your questions.
- Team of knowledgeable sales coordinators to make sure you get the part you need, when you need it.
- Emergency parts and service availability 24 hours a day, 7 days a week.
- Experienced field service technicians available to maintain your filler in peak operational condition.
- Six-month warranty.
