

SENTINEL™ OVENABLE TRAY BOARD

Each year, using sustainable practices and guided by a commitment to manufacturing excellence, Evergreen Packaging produces tens of thousands of tons of polyethylene terephthalate (PET) dual ovensafe tray board on which global brands rely to deliver their food products to millions of homes.

The board is PET extruded for use in either conventional or microwave ovens and is available in a basis weight range of 184 to 295 lb/3000 ft² or a board caliper of .018 – .028 in. PET—available in black, clear, and white.

Features:

- Consistent quality
- Excellent converting performance
- Superior strength properties
- Outstanding print quality
- Inquire about availability of certified fiber
 - FSC[®] Mix Credit¹
 - PEFC[™] Chain-of-Custody
 - SFI[®] Chain-of-Custody

Benefits:

- Suitable for use in conventional and microwave oven applications

End Uses:

- Trays
