

TAKE A CLOSER LOOK AT SENTINEL™ RENEWABLE ICE CREAM BOARD: OUR RESPONSIBLE STORY

RENEWABLE RESOURCES

Over 99% of Evergreen Packaging's® Sentinel™ Renewable Ice Cream Board is made from renewable resources: trees from forests where responsible forestry practices are used, and polyethylene derived from sugarcane.

RESPONSIBLE SOURCING

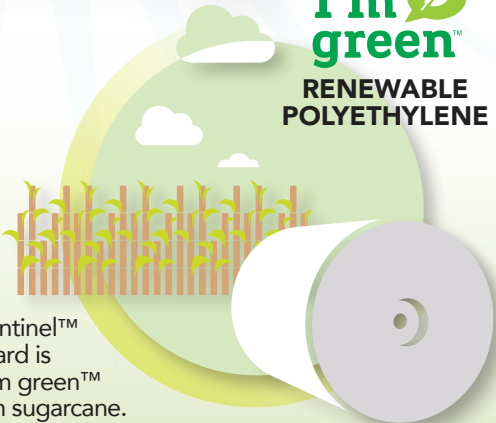

Evergreen Packaging sources wood fiber responsibly by maintaining three forestry certifications and conducting annual third-party audits.

RENEWABLE ENERGY

More than half the energy that fuels Evergreen Packaging's manufacturing process is from biomass. Biomass energy is renewable.

I'm green™ RENEWABLE POLYETHYLENE

Evergreen Packaging's Sentinel™ Renewable Ice Cream Board is extruded with Braskem I'm green™ Polyethylene derived from sugarcane.
