N-8 Grease Pump Update Kits **EPE NEWS**

10% Discount on Select N-5 & N-8 Rebuild Kits Continues Through May

Call or email NOW to order Summer Rebuild Kits for your N-5 and N-8 gable top packaging machines.

Until May 31, receive 10% off the list price on select OEM rebuild kits to complete those important filler rebuild projects during the upcoming summer months.

Turn to page 2 for the full list of discounted rebuild kits and prices.

Order now at 1-800-553-5981 or evergreenparts@everpack.com to ensure timely delivery and to take advantage of these special prices.

When you have a confirmed date for parts delivery, call 1-800-331-6083 to schedule Evergreen Packaging Service for the installation of your OEM Parts.

EP NEWS

Order HMI Display Replacement Kits Now to Avoid Unscheduled Downtime

Due to the ever-changing nature of computer hardware and software, we have had to migrate our HMI operator display to more currently available units. With that in mind, if you don't currently have a spare display ready to go for your EH-2, EH-3, EQ-5, H-9, H-10 or Q-14 filler, now may be a good time to consider ordering one to prevent unscheduled downtime in the event of a display failure.

From a hardware perspective, this means that the display itself has moved to a model that now offers touchscreen-only functionality. In the past, display kits were touchscreen, function key, or some were both touchscreen and function key. However, due to obsolescence of function key displays, our future display replacements will be touchscreen only. As such, all of the function key commands have been converted to touchscreen controls and commands.

Evergreen will still perform migration and programming of the display replacement kit, so the display kit will arrive in a plug-and-play state for your filler. Along with the display, we will ship a USB flash drive containing a backup copy of the program installed on the unit.

- Richard Spier Controls Engineer

The *Run Time* is the newsletter of the Evergreen Packaging Equipment Sales Services Department. Its purpose is to provide customers with Evergreen Packaging gable top parts and service information

SERVICE TIP

New Spout Photoeye Senses Caps More Accurately and Reliably

Photoeyes can be finicky and require adjustment to properly see the desired objects. To simplify that process, Evergreen is offering a new Spout Photoeye Conversion Kit, PN 3058778, to upgrade the photoeye that senses caps moving down the tracks on your spout closure system.

The new photoeye does not require any setup or adjustment. It is already preset to see a shorter distance so it only sees the caps. The photoeye ignores other parts of the machine and any motion in the background. It also reliably senses a variety of cap colors.

Previous photo-

eyes may have used a smaller Pico-style connector, so the kit includes an adapter cable that makes rewiring unnecessary. It also includes a mounting bracket and the necessary hardware.

EVERGREENPACKAGING is a global leader in beverage packaging systems, serving the dairy, juice, specialty, and other liquid food markets. The Evergreen Packaging business employs nearly 4,100 people worldwide. Besides the North American facilities, Evergreen Packaging includes wholly owned subsidiaries in China, South Korea and Taiwan, and joint ventures in Israel, Latin America, North Africa and Saudi Arabia

Evergreen Packaging is owned by Reynolds Group Holdings Ltd, an investment company that also owns Reynolds Packaging, Pactiv Corporation, Closure Systems International and Graham Packaging.

The Evergreen Packaging product line includes:

- Gable top packaging equipment—which forms, fills, and seals paper gable top cartons available for pasteurized, ESL (Extended Shelf Life), ELL (Extended Long Life), and hot fill applications. These machines fill cartons from 4 oz. up to half-gallon (150 ml up to 2 liter), at speeds from 30 to 340 cartons per minute.
- SPOUT-PAK® twist-off closures for most gable ton cartons
- Gable top materials available through our global network of converting plants

SERVICE TIP

New Titanium Ultrasonic Converter Eliminates Concerns About Nickel Flakes

Ultrasonic converters convert electrical energy into ultrasonic vibrations that are used to weld a spout cap onto a carton. On Evergreen Packaging machines, the converters are located behind shielding or are inside enclosures to help protect them from harsh cleaning chemicals.

The converters supplied by Branson Ultrasonics have always been nickel plated.

In the vast majority of installations, the nickel plating adheres for the life of the converter. However in some applications, the corrosiveness of the cleaning chemicals used may cause the nickel plating to peel off. This does not affect the operation of the converter. It will still successfully weld caps to the cartons. But there may be some concern about the appearance or about flakes of nickel coming off of the converter.

To alleviate those concerns, Evergreen Packaging now offers a converter with a solid titanium front driver: PN 6511766. This converter has no nickel plating to flake off.

It is best practice not to get any cleaning chemicals on ultrasonic converters. But if there are concerns about the chemicals used or the cleaning practices and processes in your plant, an upgraded converter may take care of those issues.

Every part you purchase from EVERGREEN PACKAGING EQUIPMENT is backed by our:

- Commitment to quality
- Technical Service Team (TST) of engineers to answer your questions.
- Team of knowledgeable sales coordinators to make sure you get the part you need, when you need it
- Emergency parts and service availability 24 hours a day, 7 days a week.
- Experienced field service technicians available to maintain your filler in peak operational condition.
- Six-month warranty

SERVICE TIP

Beef Up Your N-8 Grease Pump With These Update Kits

Kits are available to update your N-8's Trabon or Lincoln grease pump with the more robust Graco grease pump PN 5907880. This is a drop-in replacement that offers improved performance over the original grease pumps. It has a higher pressure ratio and output, a more robust reservoir seal and a built-in level sensor. The grease pump has been thoroughly tested on N-8 fillers to ensure proper performance.

To replace old Trabon grease pump PN 5904692 on N-8 SNs 1525-1670, order Grease Pump Upgrade Kit PN 3058726.

To replace old Lincoln grease pump PN 5902943 on N-8 SNs 1671-1731, order Grease Pump Upgrade Kit PN3058716.

Both upgrade kits include the grease pump and all necessary fittings and hardware.

The new Graco grease pump is standard on N-8 SNs 1732 and up.

ANNOUNCEMENT

The Evergreen
Packaging facility will
be closed on
Monday, May 29 for
the Memorial Day
holiday. On that day,
we will ship parts and
schedule service on
an emergency basis
only.

Happy holiday!
