

SENTINEL™ BARRIER CUPSTOCK

Evergreen Packaging's Sentinel™ Barrier Cupstock offers features to meet consumer needs without sacrificing its outstanding converting and packaging performance or exceptional print quality.

Sentinel™ Barrier Cupstock is suitable for barrier cup applications and is available in a board caliper of .012 - .020 in. Designed to meet a range of category-specific OTR and WVTR barrier requirements, depending on your shelf-life needs.

Features:

- Engineered to protect freshness and extend shelf life
- Made with over 50% renewable energy from biomass
- Consistent quality
- Excellent converting performance
- Superior strength properties
- Outstanding print quality
- Inquire about forest certification and Chain-of-Custody

Benefits:

- Suitable for direct converting applications
- High-level barrier to protect product freshness
- Meets consumer needs for packaging made from renewable resources

End Uses:

- Barrier Cup
 - Cereal
 - Snacks
 - Nuts
 - Dried fruits
 - Dry soup mix
 - Pet treats
 - Cookies
 - Candy
